

# Halloween Pet Safety Tips

Halloween isn't always fun for our furry friends. Check out these tips to have a fun and safe Halloween for you and your pets:

- Secure your dog away from the door so they don't get scared by trick-or-treaters and try to bite someone or escape.
- Distract your pet with a favorite toy.
- Turn on the TV or play soft music in the pet's room to mask sounds of Halloween activities.

- Close the drapes so your pets don't see people walking by windows and become stressed.
- If your dog barks at the doorbell, disconnect it or watch for trick-or-treaters so they won't ring the bell or knock at the door.
- Keep all pets indoors (cats, too) so they won't get spooked and run away.
- Make sure your pet has current identification and a microchip in case they do escape out the front door.
