

# Thank you for participating in our Foster to Rehome Program!

## Ways to help your dog find a forever home:

**PROMOTE:** Spread the word - market your dog to friends and family and don't forget to post on your social media. Your photos and videos of your foster dog at home show potential adopters its true personality.

**TELLS US:** Housebroken? Good with kids/cats/livestock/other dogs? High energy? Couch potato? Crate trained? Tricks? Food or toy motivated? Give us all the details and send your photos/ videos to [dogfoster@kerncounty.com](mailto:dogfoster@kerncounty.com) . We will promote your foster on all our platforms.

**OFF SITE ADOPTION EVENTS:** You know your foster dog the best, and we count on you to help find placement. Our off-site adoption team is at various locations with adoptable shelter dogs every Friday, Saturday, and Sunday. Fosters are expected to stay with their dog to speak with potential adopters. Locations and times vary – a full list of the next month's locations is available from the Dog Foster Team. **NOTE: Foster dogs must be medically cleared and spayed/neutered to be eligible for off-site events and adoption.**

**FOSTER ONLY ADOPTION EVENTS:** We do hold Foster Only adoption events. Fosters are expected to stay with their dog to speak with potential adopters. Locations and times vary – speak with the Dog Foster Team for a list of upcoming dates/locations. **NOTE: Foster dogs must be medically cleared and spayed/neutered to be eligible for off-site events and adoption.**

**NEW !! ADOPTION PROCESSING:** You can now process the adoption of your foster animal without returning to the shelter. Ask our foster care team for the link to process an adoption this way. As a reminder, dogs must be altered and medically cleared to be eligible for adoption.

Found a new family for your foster? Don't want to come to the shelter to do the paperwork? Follow these simple steps to process the adoption:

Use this link below (or scan QR code) to access the adoption application:

[Online Adoption Contract Click Here](#)

**NOTE: You will need to enter the Animal ID number on the form. The ID number can be located on the kennel card(s) you were issued/emailed when you picked up for foster. (It starts with "A" followed by 7 digits.)**

The adopter will need to fill out the adoption contract completely. At the bottom of the form on the left is the link to the payment portal. The adopter can then enter their Credit Card information. (We accept Visa and Mastercard only, and the adoption fee is \$20.)

Once payment is accepted, the adopter should go back up to the contract page and digitally sign at the bottom. Please have them double check their email address, as the medical records, adoption receipt and other important information will be sent to that address.

Congratulations! You have completed the adoption process and found your foster a new family! Please let them know that the medical records, adoption receipt and other information will be emailed to them within a few business days.
